A modern-day reinvention of a critically acclaimed franchise, SSX returns packing adrenaline and reality-defying gameplay into every moment. Race, trick, and survive the world’s most iconic mountain ranges. Defy Reality. Own the Planet with SSX.
SSX GAME FEATURES

Compass the Planet
From the Alps to the Andes, the Himalayas to the Rockies, ride some of the most iconic mountainous terrain in the world. Developed using real-world NOAA topographical data and SSX’s own proprietary Mountain Map tool, every region delivers an exaggerated geomorphology experience that is true to the rich history of the landscape.

Race II
SSX goes way beyond your typical racing experience! With wide-open terrain, multiple elevations and starting points, and no invisible walls, it’s up to your skills and imagination to discover the fastest line down the mountain.

Track II
Defy the laws of gravity by pulling off tricks that would make even the world’s greatest snowboarders cringe. Feel the thrill of the 130mph Double McTwist—SSX! You’re still a beginner if you still have both feet strapped to the board while spinning 360 feet in the air.

Explore
Explore every drop in the massive world of SSX. Set your fastest time on Race Drop or, post your highest score in Trick Drop, and dessert as far down the mountain as you can in Survival Drop. Instead of a traditional leaderboard showing friends’ times to beat, ghosts of your friends’ runs are visible in your world showing you exactly how they performed. Challenge your friends’ ghosts or let your ghost crank up your own and loss as you dominate your way to the top of your friend’s leaderboards.

Survive II
Escape avalanches, rock slides, freezing cold temperatures, and more as you take Mother Nature head-on in a hope of surviving some of the most treacherous descents on earth.

Global Events
Constant global competition at every drop point in the SSX universe. Compete in live events against real people in real time on every drop in the game. An event can last for a single run, hours, or even days and can support up to 150,000 participants, with your friends and closest competitors joining it and out of your immediate surroundings all the time. Post a time and move up or down the leaderboard even if you pull out and turn off your console.

RiderNet
Inspired by the incredible Autolog engine hot powered on Gran Turismo, RiderNet will guide you through the incredible world of SSX by allowing you to ‘like’ your favorite drops, recommending new drops and friends, guiding you to where your friends are, or drops that your ghosts are dominating, and directing you to the biggest and best Global Events for your level.

Every Moment Is a Rush
A revolutionary physics engine pushes the boundaries and defies the laws of reality, allowing you to ride and trick off anything, unrestricted by invisible walls and barriers.

Legendary Characters and All-New Icons
Favorite characters including Elie, Koen, Mac—or selected by the fans—make their return to join some new faces.
